RELEVANT TECHNICAL EXPERIENCE

Flourish – Evanston, IL – *Full-Stack Developer*

April 2018-Present

<https://github.com/mrerlander/flourish>

- Designed, developed and deployed a web application to allow small business owners to automatically save money based on their monthly cash flow to meet and exceed their financial goals.
- Used Git and GitHub to manage changes and versions of the application code.
- Developed a server application API using Node.js and Express.js leveraging MongoDB as a data store.
- Used the SendGrid API to automatically send emails to new users after signing up.
- Created a client web application with React.js and Materialize for styling all components.
- Deployed the client and server application onto Heroku.

Northwestern Coding Bootcamp Network – Evanston, IL – *Full-Stack Developer*

March 2018-Present

<https://github.com/peterlgustafson/NW-CodingBootcamp-Network>

- Led three other developers to design, develop and deploy a web application for students to connect, share events and job opportunities.
 - Managed the team's application code with Git and GitHub.
 - Created a client web application using vanilla JavaScript, jQuery and Materialize to style page elements.
 - Developed a server application using Node.js and Express.js to allow the client application fetch and store job postings and events in a MySQL database.
-

PROFESSIONAL EXPERIENCE

Trading Technologies – Chicago, IL – *Customer Success Operations Manager* August 2016-January 2018

- Coordinated effort to map the customer journey for new and migrating clients, identifying key touch points and establishing written guidelines for how each team should engage with each type of client.
- Worked cross-functionally to build, develop and refine a process to manage large-scale global client migrations onto TT's new cloud-based platform.
- Partnered with Sales and Customer Success leadership to identify and build key business, sales and customer health reports to measure and monitor at the global, regional and individual level.
- Collaborated with Product leadership to implement and manage a process to prioritize feature and enhancement requests and product migration blockers for global Sales and Customer Success teams.
- Successfully rolled out a Net Promoter Score (NPS) survey to gauge overall customer satisfaction and loyalty.

Carena, Inc. – Seattle, WA – *Business Development Associate***February-August 2016**
